

BEAD Program: A Framework to Allocate Funding for Broadband Availability

State Broadband Report: Oregon

January 2024

1 Eligible Locations

How many unserved/underserved locations are eligible for BEAD funding?

12%

173K LOCATIONS

OF OREGON LOCATIONS LACK HIGH-SPEED BROADBAND IN JUN 2023

VS. 9% STATE/TERRITORY AVERAGE

UNSERVED LOCATIONS, JUN. 2024

68.5K LOCATIONS

Are estimated to lack broadband access at 25/3 Mbps

UNDERSERVED LOCATIONS, JUN. 2024

49.5K LOCATIONS

Are estimated to lack broadband access at 100/20 Mbps

These locations are primarily in rural areas and are eligible for BEAD funding to deploy broadband service.

2 Total Funding

How much capital funding is the State/Territory estimated to have?

\$689M

IN BEAD FUNDING HAS BEEN ALLOCATED TO OREGON

VS. \$743M STATE/TERRITORY AVERAGE

ESTIMATED BEAD FUNDING:

BEAD Funds allocated by NTIA

\$689M

Estimated Provider Match

\$347M

Estimated Total Capital

\$1.0B

The provider match is estimated using a high-level service provider business case. See national summary deck for full details.

3 Deployment

How many locations can be covered with fiber and other technologies?

\$383M-\$689M

OF BEAD FUNDS IS REQUIRED TO BUILD HIGH-SPEED BROADBAND TO ALL ELIGIBLE LOCATIONS

DEPLOYMENT SCENARIOS:

Baseline Fiber

Maximum Fiber

100% LOCATIONS REACHED

63% FIBER LOCATIONS

100% LOCATIONS REACHED

69% FIBER LOCATIONS

\$731M TOTAL CAPITAL COST

\$1.0B TOTAL CAPITAL COST

\$306M REMAINING BUDGET

\$--M REMAINING BUDGET

 June 2023 FCC Broadband Locations	Unerved <i>(less than 25Mbps/3Mbps)</i>	Underserved <i>(less than 100Mbps/20Mbps)</i>
		111.6K
 Subsidy Program Funded Locations ¹	32.9K	12.3K
 Incremental Build ² (13% annual build, for 12 months)	10.2K	--
 Jun. 2024 Estimated Eligible Locations	68.5K A	49.5K B

1. Locations with "commitments" to receive support from federal subsidy programs

2. Given the uncertainty around the magnitude of locations moving from unerved to underserved, we have not made incremental builds adjustments to underserved locations

BEAD eligible locations does not account for state-specific eligibility rules set forth in Initial Proposals

Provider Match Examples

Total Deployment Cost per Location

- BEAD Funds Per Location
- Estimated Provider Match

Provider Match %

75%	75%	25%	19%
-----	-----	-----	-----

To be conservative, we assume provider match amounts have a maximum of 75% and a minimum of 25%, except in high-cost areas

Total Capital Available - Oregon

\$1.0B in total capital is estimated to be available to serve unserved/underserved Oregon locations (combining BEAD funding and estimated provider match)

Provider Match - Oregon

Total Estimated Provider Match:

\$347M

Total Estimated Eligible Locations:

118.0K

Average Provider Match:

\$2,944
PER LOCATION

We estimate the average provider match will be \$2,944 – provider matches will be 75% where cost to deploy is less than \$4K

1. The model uses a \$9k threshold, however, States/Territories will individually need to determine their appropriate extremely high-cost threshold

2. In reality, providers will determine the viable level of match funding for each project using a business case model. They will be willing to contribute a greater match in some locations and less in others. Locations which are hardest to serve may need to be fully funded by BEAD with no match. Competitive bidding should drive provider matches towards this level.

Oregon | Cost to Deploy Fiber by Decile

CAPEX Fiber Deployment Cost per Location Segmented by Cost Deciles¹

Unserved Locations

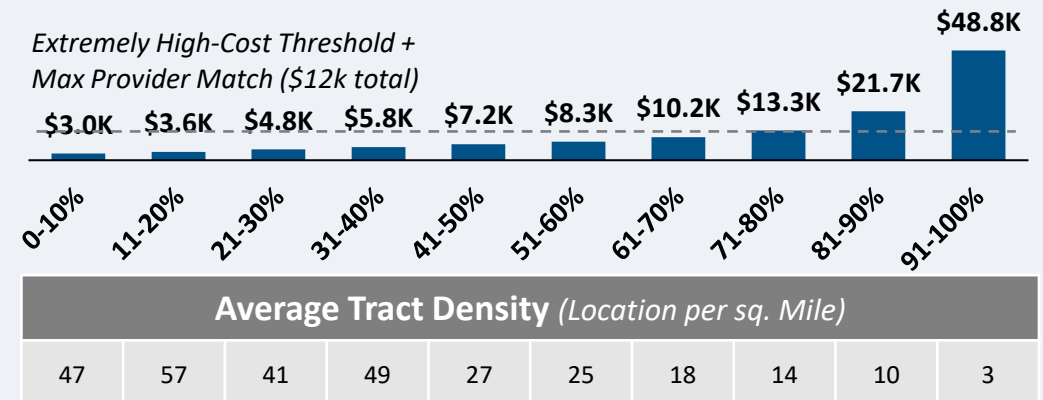

Overall Average Cost per Location: \$23,495

68.5K Locations

Underserved Locations

Overall Average Cost per Location: \$12,899

49.5K Locations

Over 60% of locations are estimated to fall below the High-Cost Threshold + Provider Match

Oregon | Fiber Preferencing Scenarios

1. Scenario 2 deploys fiber beyond the extremely high-cost threshold

Oregon | Conclusion

Funding Summary

Oregon is expected to receive

\$689M in BEAD funding

\$347M in estimated provider matching

We estimate the funding is sufficient to reach all of Oregon's 118.0k eligible locations with high-speed broadband

Key Findings

Oregon will need to decide how far to deploy fiber while considering the trade-off of having higher fiber coverage vs. retaining funds for other BEAD eligible programs

A Baseline Fiber Deployment...

Maximizing Fiber...

- Leaves \$306M additional funds for affordability programs
- Reaches 63% of locations with fiber
- Requires 37% to be reached with other tech.

- Exhausts funds without leaving additional funds for affordability programs
- Reaches 69% of locations with fiber
- Requires 31% to be reached with other tech.

States/Territories will set their own extremely high-cost threshold and may choose a threshold or funding paradigm different from these two scenarios
