

BEAD Program: A Framework to Allocate Funding for Broadband Availability

State Broadband Report: South Carolina

January 2024

1 Eligible Locations

How many unserved/underserved locations are eligible for BEAD funding?

7%
142K LOCATIONS

OF SOUTH CAROLINA LOCATIONS LACK HIGH-SPEED BROADBAND IN JUN 2023
VS. 9% STATE/TERRITORY AVERAGE

UNSERVED LOCATIONS, JUN. 2024

 **50.1K**
LOCATIONS

Are estimated to lack broadband access at **25/3 Mbps**

UNDERSERVED LOCATIONS, JUN. 2024

 **44.8K**
LOCATIONS

Are estimated to lack broadband access at **100/20 Mbps**

These locations are primarily in rural areas and are eligible for BEAD funding to deploy broadband service.

2 Total Funding

How much capital funding is the State/Territory estimated to have?

\$552M

IN BEAD FUNDING HAS BEEN ALLOCATED TO SOUTH CAROLINA
VS. \$743M STATE/TERRITORY AVERAGE

ESTIMATED BEAD FUNDING:

BEAD Funds allocated by NTIA	\$552M
Estimated Provider Match	\$283M
Estimated Total Capital	\$835M

The provider match is estimated using a high-level service provider business case. See national summary deck for full details.

3 Deployment

How many locations can be covered with fiber and other technologies?

\$380M-\$551M

OF BEAD FUNDS IS REQUIRED TO BUILD HIGH-SPEED BROADBAND TO ALL ELIGIBLE LOCATIONS

DEPLOYMENT SCENARIOS:

 Baseline Fiber	 Maximum Fiber
100% LOCATIONS REACHED	84% FIBER LOCATIONS
100% LOCATIONS REACHED	100% FIBER LOCATIONS
\$663M TOTAL CAPITAL COST	\$835M TOTAL CAPITAL COST
\$172M REMAINING BUDGET	\$142K REMAINING BUDGET

1. Locations with “commitments” to receive support from federal subsidy programs

2. Given the uncertainty around the magnitude of locations moving from unerved to underserved, we have not made incremental builds adjustments to underserved locations

BEAD eligible locations does not account for state-specific eligibility rules set forth in Initial Proposals

Provider Match Examples

Total Deployment Cost per Location

- BEAD Funds Per Location
- Estimated Provider Match

High-Cost Areas
\$15.5K

Provider Match %

75% 75% 25% 19%

To be conservative, we assume provider match amounts have a maximum of 75% and a minimum of 25%, except in high-cost areas

Total Capital Available - South Carolina

\$835M in total capital is estimated to be available to serve unserved/underserved South Carolina locations (combining BEAD funding and estimated provider match)

Provider Match - South Carolina

Total Estimated Provider Match: **\$283M**

Total Estimated Eligible Locations: **94.9K**

Average Provider Match: **\$2,987 PER LOCATION**

We estimate the average provider match will be \$2,987 – provider matches will be 75% where cost to deploy is less than \$4K

1. The model uses a \$9k threshold, however, States/Territories will individually need to determine their appropriate extremely high-cost threshold
 2. In reality, providers will determine the viable level of match funding for each project using a business case model. They will be willing to contribute a greater match in some locations and less in others. Locations which are hardest to serve may need to be fully funded by BEAD with no match. Competitive bidding should drive provider matches towards this level.

South Carolina | Cost to Deploy Fiber by Decile

CAPEX Fiber Deployment Cost per Location Segmented by Cost Deciles¹

Unserved Locations

Overall Average Cost per Location: \$10,065

50.1K Locations

Underserved Locations

Overall Average Cost per Location: \$7,503

44.8K Locations

Over 80% of locations are estimated to fall below the High-Cost Threshold + Provider Match

1. Chart values are average cost per location for each decile bucket

3 Develop Deployment Scenarios

South Carolina | Scenario Analysis Results

SCENARIO:

1 Baseline Fiber Deployment

2 Maximum Fiber Deployment

■ Fixed Wireless
■ Fiber

	Scenario 1	Scenario 2
Capex Required per Locations ¹	\$7,165	\$6,790
BEAD Funds Available to State	\$552M	\$552M
+ Estimated Provider Match	\$283M	\$283M
= Total Available Capital	\$835M	\$835M
- Capex Required to Build	\$663M	\$835M
= Remaining Funds	\$172M	\$142K
% of Locations Reached	100%	100%
% of Locations Reached with Fiber	84%	100%

1. Funding to deploy fiber before the maximum \$3k provider match per location

Funding Summary

South Carolina is expected to receive

\$552M in BEAD funding

\$283M in estimated provider matching

We estimate the funding is sufficient to reach all of South Carolina's 94.9k eligible locations with high-speed broadband

Key Findings

South Carolina will need to decide how far to deploy fiber while considering the trade-off of having higher fiber coverage vs. greater remaining funds for other BEAD eligible programs

A Baseline Fiber Deployment...

Maximizing Fiber...

- Leaves \$172M additional funds for affordability programs
- Reaches 84% of locations with fiber
- Requires 16% to be reached with other tech.

- Leaves \$142K additional funds for affordability programs
- Reaches 100% of locations with fiber
- Requires 0% to be reached with other tech.

States/Territories will set their own extremely high-cost threshold and may choose a threshold or funding paradigm different from these two scenarios
